The English Course

Here at Swan, we know that students learn better in a stimulating and supportive environment, so we ensure that the classes are fun and engaging. Our junior students come from Europe, South America, Russia, the Middle East and Asia, giving all students the chance to enjoy the company of an exciting and diverse mix of nationalities.

The aim of the General English course is to improve the communicative English language capability of each individual, enabling them to function in English with confidence. The students will be in General English language classes with students of other nationalities suited to their level. There will be a maximum of 15 students in a class. Our teachers will focus on developing the students' communicative and interactive skills, such as speaking and pronunciation.

We use a communicative approach to language teaching and students will be encouraged to use their English in a variety of classroom contexts. They will work individually, in pairs and in groups.

Every Tuesday and Thursday, students will go on a half day trip to local places of interest accompanied by a Swan representative.
